Sir:

Under the provisions of 37 CFR §1.97 through §1.98 and pursuant to Applicants' duty of disclosure under 37 CFR §1.56, Applicants respectfully bring the following document cited in the Chinese Office Action and German Office Action in counterpart foreign applications and listed on the attached form PTO-1449, to the attention of the Examiner in charge of the above-identified application.

This citation does not constitute an admission that the reference is relevant or material to the claims. It is only cited as constituting related art of which the Applicants are aware.

In compliance with the requirements of 37 CFR §1.98(a)(3), as a concise statement of relevance, as it is presently understood by the individual designated in 35 U.S.C. §1.56(c) most knowledgeable about the content of the information, the undersigned attorney of record submits translations of portions of official actions by foreign examiners in which the reference was cited. The relevance to the pending U.S. patent application is that the reference was cited in a foreign patent application on the same subject matter. However, no independent analysis of the reference, the accuracy of the statement of the foreign examiners or the claims of the foreign applications under the laws of those countries of the United States relative to the subject matter claimed in the present application has been made, the present understanding of the contents thereof by the undersigned being based on the translations of the foreign examiners' comments submitted herewith.
